Dear Sir or Madam

Included with this letter is a functioning, early-stage prototype of the InfoPlug. With this, we hereby welcome you to the InfoPlug community.

To test the functionality of this prototype, simply follow these steps:

1. Plug the electrical male side of the InfoPlug in to a power bar (recommended), or wall socket.
2. Plug the second power cord in to a power bar (recommended), or wall socket.
3. Plug an appliance, such as a lamp, in to the electrically female side of the InfoPlug
4. With either your personal computer or phone, join the WiFi network "InfoPlug"
5. With your web browser of choice, navigate to the IP address 192.168.4.1

We encourage you to try plugging in a variety of different appliances in to the InfoPlug. The results may shock you!

Yours Faithfully,

InfoPlug Ltd.
